Butterfly Valves. Pneumatic & Electric Actuators. Check Valves

Safety Relief Valves, Steel Exhaust Heads

Asahi/America

Thermoplastic Ball & Butterfly Valves, Pneumatic Actuators & Accessories

Solenoid Valves for Fluid Power, Angle Body Multi-Purpose Valves

CPI Products

Flange Conversion Kits, Gaskets, Control Panels

Ball Valves, V-port Control, Trunnion Type, Pneumatic & Electric Actuators

Metal Bellows Expansion Joints & Flexible Connectors

Flow Meters, Level Gauges, Temperature & Pressure Transmitters

Pressure Regulators, Pneumatic Relays, Boosters & I/P Transducers

Complete Heat Transfer Packages for DHW, Building Heat, and Clean Steam Generation

Steam Traps, Centrifugal Pumps, Condensate Return & Boiler Feed Systems

Valve Position Transmitters & Beacons, Valve Positioners

Steam Traps & Specialties, Pressure-Operated Condensate Pumps

Pilot-Operated Liquid Regulators

Water Tube Boilers for Steam, Hot Water & Thermal Fluid, Condensing Boilers, Deaerators

Electric & Pneumatic Valve Actuators – Linear and Rotary

Control Valves, Electric & Pneumatic

Condensate Return & Boiler Feed Systems

Ball Valves, Globe Valves & Check Valves. Pneumatic & Electric Actuators

Pressure & Temperature Regulators, Control Valves, Safety Relief Valves

Strainers, Check Valves, Butterfly Valves, Pump Protection Products

Pressure Gauges & Thermometers, Temperature Regulators

Valve Positioners & Accessories

Steam Traps & Specialties, Pressure-Operated Condensate Traps

Repair Services

Our fully-equipped shop has the ability to repair most of the products we sell, including regulators, control valves, traps, pumps, and safety valves.

Assembly & Testing

We assemble and test our temperature regulators, control valves, and safety valves in our shop to ensure quick delivery and dependable operation.

Special Applications

Control Products has the technical expertise to size, design, and fabricate control packages as well as condensate pump and heat exchanger assemblies.

Steam System Surveys

Our trained personnel can evaluate your steam system using the latest equipment to determine areas for improved efficiency.

CUSTOM SERVICES
